MSC Updates Intra-Asia Network

MSC Mediterranean Shipping Company continues to expand and enhance its intra-Asia network with adding a new service and updating four existing services, starting week 30.

These enhancements to our intra-Asia network offer direct connections and competitive transit times for Long Haul cargo from Greater China and South East Asia, as well as comprehensive port coverage between Indonesia, South China, Taiwan, Philippines, Vietnam and Thailand.

This comes at a time when customers are showing increasing demand for new services to move cargo between key locations in Asia. In addition to launching Seahorse, we are updating four existing services: New Origami, Seagull, Lang Co Express and Malyndo Express. Our newly updated services will link seamlessly to our other intra-Asia services and to our global ocean liner network, as well as to our inland and barge services within the Asia region.
