New Flat Rate for Storage Charge in United States

27 October 2020

North AmericaUnited States of America

Share

We at Maersk constantly strive to provide reliable and innovative products to our customers. In order to continue offering our high quality and unmatched reliability, we would like to inform you of upcoming changes to our Storage Import (STI) and Storage Export (STE) surcharges.

Effective November 26th, 2020, a flat storage rate of \$50 per container, per day will be charged in United States when at the request of the customer, Carrier pre-pulls a full container from the CY terminal to the Inland Carrier’s yard to avoid terminal storage. This is in conjunction with the pre-pull and store door products offered and applicable for dry cargo only.

We would like to take this opportunity to say thank you for doing business with us.

If you have any questions, please feel free to reach out to your local sales or customer service representative. You will find contact details of our local offices on Maersk website.
