# Temporary Port Rotation Change on Condor Service – Update 5

We refer to [our previous communications](#) about the switching of port calls for our Condor service as a result of port congestion and supply chain issues.

Due to ongoing congestion issues at Felixstowe, we will be calling at Wilhelmshaven instead of Felixstowe until the end of the year, starting from MSC NEW YORK, voyage NR136W to ELEONORA MAERSK voyage 144W.

Please note that import cargo bound for Felixstowe will be routed via a shuttle service from Antwerp.

We apologise for any disruption to your cargo shipments. MSC continues to monitor and implement necessary measures to minimise disruptions in a globally challenging market.

Should you have any questions, please [contact your local MSC representatives](#) in our global network of more than 500 offices.
