# Turkiye Export Storage - Reefer cargo

30 August 2023

Europe

Turkey

Share

In order to be able to continue providing a high level of service for your reefer cargo, Maersk will introduce a new storage application for all reefer exports out of Turkiye as follows:

- The recent increases in energy costs and storage period from terminal cargo cut-off to vessel departure dates have meant that Maersk needed to assess the sustainability and accuracy of its storage cost levels for reefer cargo. After careful consideration, we will introduce a new application for the origin free-time for all reefer cargo from Turkiye: We will include a total of 5 days of storage and plug-in/electricity charges under the new surcharge called **“DTE - Origin Freetime Extension” which will be USD 160 per reefer container** with effect from 01 October 2023.
- With this, we will also adjust our DnD tariff where you will enjoy 5 days of storage and plug-in/electricity period included under the DTE – Origin Freetime Extension surcharge for all reefer export cargo.

The surcharge is effective from 01 October 2023 - price calculation date (PCD) and applicable to all reefer exports from Turkiye.

We thank you for your trust and loyalty and look forward to continuing to assist and work with you on all matters pertaining to your logistical needs.

If you have any further questions, please contact your local Maersk partners.
