

10/12/2020 Trade Services, CGS - Congestion Surcharge

Update on Bilbao Port Congestion Situation

The situation in the port of Bilbao, Spain is improving, terminal operations are getting back to normal. However, please note that in the coming days some delays are expected.

MSC will resume the set up in place before the strike with two regular weekly calls, offering customers the possibility to increase their cargo flows following the congestion issue.

The congestion surcharge (CGS) which was introduced early November for all cargo to/from Bilbao will be removed as from 4 January (BL date).

For more information, please contact your local MSC office.
