Inland haulage Poland to/from World

25 August 2022

Europe

Poland

Share

Maersk constantly strives to provide more reliable and innovative products. We offer the broadest coverage and competitive transit times at an unmatched reliability.

In order to be able to secure needed capacity and continue offering our broad portfolio of inland services, we are revising our inland rates in Poland as of 5th of September 2022.

For SD or inland CY import/export bookings new rates will be applied as per PCD.

For import shipments as per vessel ETA to final discharge port.

Increase will affect both import and export and basically all transport modes via all gateways where Maersk is offering inland transportation in Poland.

New rates will be reflected in online tariffs and can be found under Maersk website from 30-th of August latest.

We thank you for your business and look forward to serving your future global transportation needs.

Should you have any questions, please contact your local Maersk representative.
