2023 Quebec Spring Thaw Period

10 February 2023

Canada

North America

Share

We at Maersk constantly strive to provide reliable and innovative products to our customers. To continue offering our high-quality reliability, we would like to alert you to changes in Quebec Weight Levels for 2023 based on the Spring Thaw Period.

The Quebec Ministry of Transport has issued its regulations for the annual Spring Thaw Period. This restriction is placed by the local authorities to account for road network's lower weight bearing capacity during the annual thaw period. The weight restrictions apply to all truck movement to and from Quebec. To comply with the regulations – Maersk will implement the following maximum acceptable cargo weight restrictions:

For Cross Border shipments, we are glad to be able to offer:

Container type	Dry	Reefer	Surcharge
20'	Up to 47,000 lbs	Up to 46,000 lbs	N/A
20'	47,001 - 52,910 lbs	46,001 – 48,000 lbs	\$390
40'	Up to 44,000 lbs	Up to 44,000 lbs	N/A
40'	44,001 to 53,000 lbs	44,001 to 53,000 lbs	\$390

For Montreal to Toronto and vice versa:

Container type	Dry	Reefer	Surcharge
20'	Up to 42,000 lbs	Up to 49,600 lbs	N/A
20'	42,001 - 52,000 lbs	49,601 to 53,500 lbs	\$390
40'	Up to 44,000 lbs	Up to 40,000 lbs	N/A
40'	44,001 to 54,010 lbs	44,001 to 50,500 lbs	\$390

Weight restrictions are not limited to the total cargo weight in the container. Restrictions require proper weight distribution over the axles.
