# Container Protect Essential (CP1) to replace Container Cleaning Import (CCI) effective from 1st April 2022

18 March 2022

India Middle East and Africa

Share

At Maersk, your needs always come first, and we are continuously simplifying the way you do business with us.

Effective 1st April 2022, a new global product, Container Protect Essential (CP1), would be introduced. CP1 is an equipment protection product to cover container repair and cleaning fees within a limit of USD100.

The CP1 will replace the surcharge Container Cleaning Import (CCI). CP1 will be applicable to all shipments imported into countries where CCI is invoiced today along with your destination charges. Payment terms remain the same.

To ensure a smooth transition, the tariff amount for CP1 is the same as CCI. In case container repair and clean fees may exceed the limit of USD100, we will invoice the difference separately.

If you have questions, feel free to contact your local sales or customer experience representative. They will be happy to assist you.

We thank you for your business and look forward to continuously serving your global transportation needs.
