North America Inland Fuel Surcharge

29 May 2020

North America

Share

We would like to inform you that for the period beginning July 1st, 2020, our Inland Fuel Surcharge (IFS/EFS) will remain at \$0 USD.

Surcharge Calculation

Our Inland Fuel Surcharge is calculated based on the weekly average fuel price published by the U.S. Energy Information Administration (EIA). The average for the last quarter was \$2.55 USD per gallon.

This surcharge is calculated at \$20 USD for every \$0.10 USD incremental increase above the baseline fuel retail price of \$3.20 USD per gallon.

Surcharge Applicability

The Inland Fuel Surcharge will not be applied should the quarterly average fuel retail price on the EIA website from the prior quarter be lower than \$3.20 USD. When applicable, the Inland Fuel Surcharge will become effective the first day of each quarter: January 1st, April 1st, July 1st, and October 1st.

Inland Regulations

We will continue working beside you to find ways to keep you covered within the inland industry regulations, so your shipments continue to receive the care you expect. As your store door carrier, we will continue to actively monitor and provide timely updates on changes that may impact your supply chain.

We would like to take this opportunity to say thank you for doing business with us.

If you have any questions, please feel free to reach out to your local sales or customer service representative. You will find contact details of our local offices on Maersk website.
