Indonesia Export Detention Calculation Revision

20 January 2021

Asia Pacific

Indonesia

Share 

Effective from Price Calculation Date February 15, 2021, we hereby notify you the following change at our Export Detention tariff calculation in Indonesia.

Maersk will use a Progressive method to calculate export detention charges upon expiry of the freetime.

The tariff itself and the agreed free time will not be affected by this change.

To explain the new method:

Progressive means: For customers with special deals, after the extended free time expires, any additional days will be subject to the detention charges as per the relevant day count in our tariff tier structure. This means that the subsequent detention charges beyond extended free time will not automatically be calculated basing on the tariffs of 1st tier.

Please click below downloadable file to see the detail explanation.

Indonesia Export D&D Progressive
PDF (57KB)

We appreciate your business and look forward to continuing working with you in the future.

Should you have any further queries, please feel free to contact your local Maersk representatives or visit our Maersk website.
