Port Congestion Surcharge - Shuwaikh, Kuwait

PRICE AND SURCHARGE UPDATES

The port congestion in Shuwaikh (Kuwait) is currently generating service disruptions and increasing our operational costs.

Port is facing ongoing work on the Jahra Road Development Project (including demolition of the Ghazali Bridge) and access will remain difficult.

Therefore, we recommend to unload cargo previously bound for Shuwaikh Port at Shuaiba (KWSAA).

CMA CGM will apply a **Shuwaikh Port Congestion Surcharge** as follows:

- Shuwaikh Import and Export
- USD 300 per TEU Dry & Reefer
- Effective as from September 15th, 2016 (B/L date, from/to all sectors except US Trade) and October 1st, 2016 (B/L date, US trade)

For further information, please contact your [CMA CGM local agent](#).
