# Schedule Update - Asia to US and Canada Network

Due to the current challenging market situation impacting port activities and generating congestion across the supply chain, MSC is planning to adjust the sailing programme on its Asia to US and Canada network to match the actual departure dates from Asia.

As such, we will revise the voyage numbers on the services below to provide better schedule reliability.

The adjustment details are below, however, you may continue to place bookings as usual as we are arranging contingency plans with alternative services.
