French Industrial Action December 2019 – Port Contingency Planning

MSC Mediterranean Shipping Company is closely monitoring the situation in France where industrial action by labour unions is impacting maritime ports and overland transportation networks around the country.

MSC is carefully implementing contingency plans wherever we need to re-route cargo to nearby European container ports in accordance with our Terms and Conditions of Carriage. Shippers may contact local MSC representatives for further details of any changes to consignments bound for discharge in France.

MSC regrets any inconvenience to customers from the disruption and will strive to resume normal services as soon as practically possible.
