## Emissions surcharge (EMS/ESS)

Asia Pacific Europe India Middle East and Africa Latin America North America

Maersk has reviewed Emissions surcharge (EMS/ESS) for Q1 2024 and the tariffs will be effective 01 January 2024. The Emissions surcharge tariffs have been calculated using the average price of European Union Allowance (EUA) from <u>EUA</u> <u>Daily Future (ice.com)</u>. The details on the period used for the calculation can be found in the table below:

Details referred for deriving Average EUA Price for Q1 2024 Emissions surcharge calculations

## Reference period

From Date   From Month	To Date   To Month	Effective Date	Type of EUA	Average EUA Price (In EUR)
16   Aug'23	15   Nov'23	01-Jan-24	Daily Futures (Symbol code: ECP)	81,54

\*For all bookings from China (Hongkong/Taiwan not included), we will add the emissions surcharge to the base freight rate

Emissions surcharge will be applied to all bookings with Load Port and/or Discharge Port country part of EU/EEA.

for regulatory reasons. Base freight rate will be adjusted quarterly (increase/decrease) to reflect quarterly updated Emissions surcharge.

\*ECO Delivery Bookings will not be charged with emissions surcharge. Choosing ECO Delivery means we replace fossil fuels

with green fuels. This investment reduces green-house-gas emissions of your bookings and decarbonizes your supply

chain. <u>Learn more about ECO Delivery</u> Tariff values for Emissions surcharge Q1 2024 can be found in the tables in the following pages.

Should you have any further questions, please contact your local Sales representative. Our teams are always available to support should you need assistance.

EMS / ESS tariff values applicable from 01 January to 31 March 2024 (Q1 2024)
