Inland Rate Increase - Venezuela

23 August 2023

Latin America Venezuela

At Maersk we constantly strive to provide reliable and professional service to our customers. To continue offering our high-quality product with unmatched reliability, as of 17th of September 2023 we will be implementing an inland tariff increase in Venezuela by average of 15%. This adjustment, applicable to Gateway points LA GUAIRIA and PUERTO CABELLO, has been prompted by the prevailing inflationary pressures and the escalation of operational expenditures across the country. This is applicable for all NON-FMC and for FMC regulated corridors.

We want to thank you for your business and look forward to continuously serving your transportation needs. In case of any additional questions please feel free to contact your customer service agent or sales representative.

Thank you for your understanding.
